

Vessel Safety Check Report

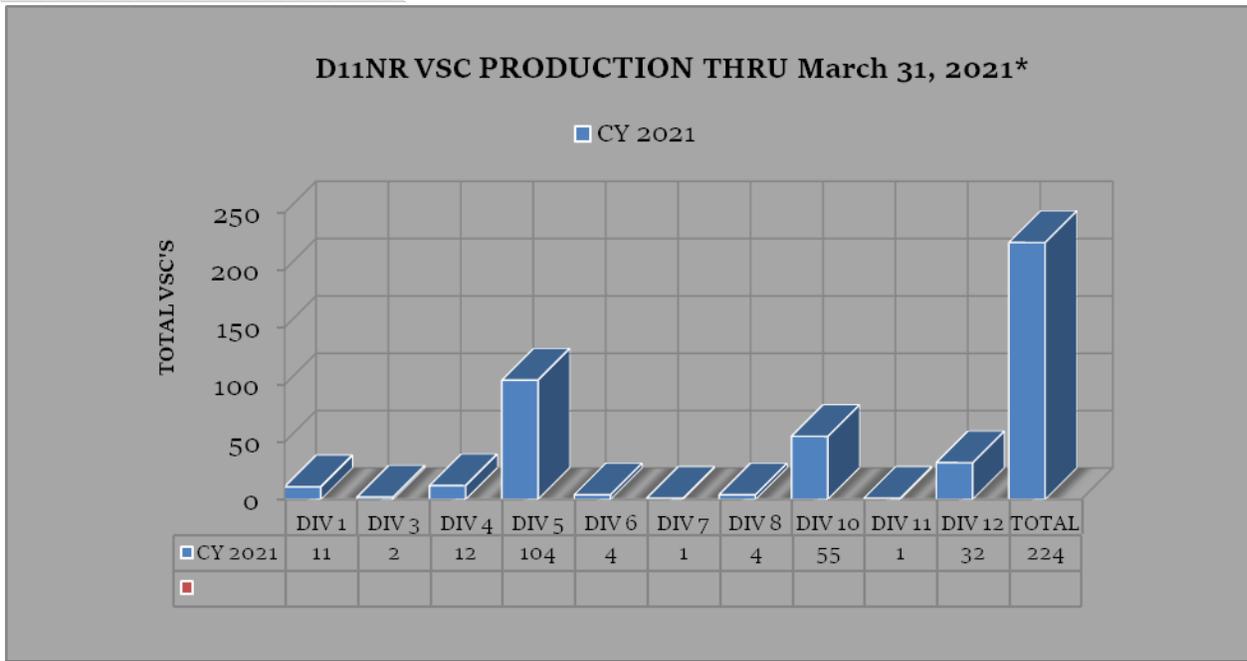

April 2021

Mike Lauro DSO-VE

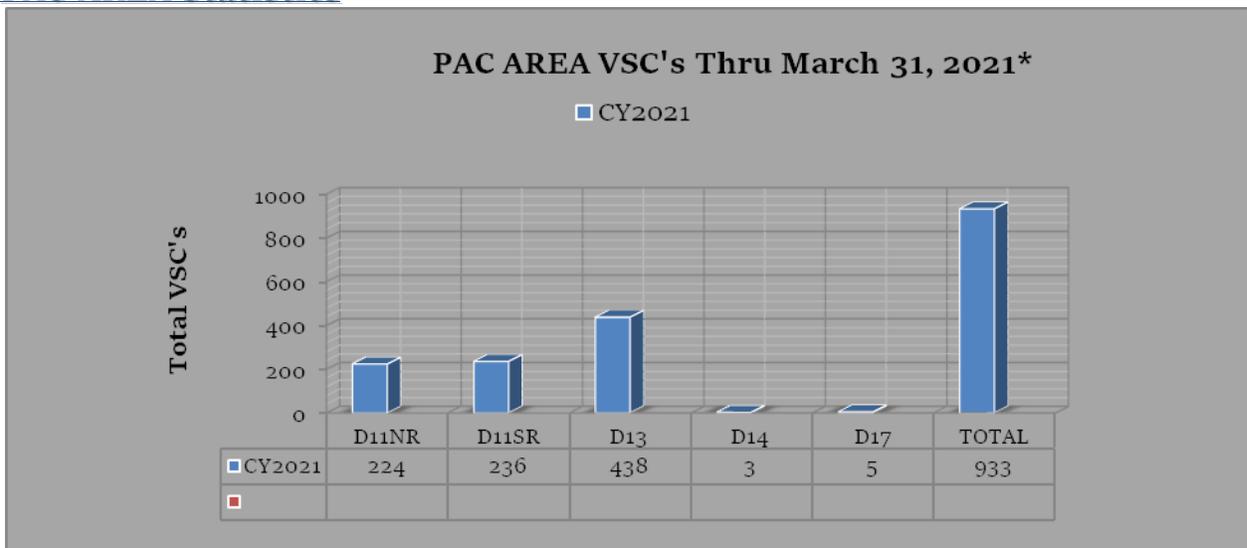

Billy Ray ADSO-VE/DEP Jan Jewell ADSO-VE/CS

DISTRICT 11N Statistics*

PAC AREA Statistics*

Due to the current conditions, there is no VSC goal for 2021 in D11NR. The data source is AUXDATA2*. Additional stats from AUXDATA2* indicates that 193 or 86% have passed the VSC, 100 or 45% are First Time VSC's, and 112 or 50% are High Risk VSC's. In addition 45 Paddlecraft VSC's have been performed, which is approximately 20% of our total VSC production. We currently have 170 ACTIVE Vessel Examiners (VE's)*

*Current statistics shown in AUXDATA2 thru March 31, 2021.

Congratulations!

Congratulations to the following member(s) who have achieved the 20+ VSC plateau for 2021. This brings our total to examiners for 2021 and is part of an elite group—approximately 2% of our D11NR Vessel Examiner membership of 170. These member(s) will receive special recognition and their names are listed on the member recognition page: <http://rbsafety.d11nuscgaux.info/ve/recognition.html>

Karensue Galvin	05-03	Wilfred A. Sumner II	05-05
Michael J. Lauro	10-03	Laurence M. Boag	12-01

VSC Questions

-These are actual questions from Exam “E”. Answers can be found in another location in the report.

1. Every documented vessel must have an official number _____

- Clearly marked on the exterior of the hull.
- Displayed near the hull identification number (HIN).
- Marked by any permanent method in some clearly visible interior structural part of the hull.
- Displayed with the state registration number on both sides of the forward half of the vessel.

2. If a vessel is required to be registered and to display the registration numbers, to be eligible for the VSC decal these numbers:

- Must have spaces or hyphens that are equal to the width of a letter (other than "I") to clearly separate the letter and number groupings and be at least 3" in height.
- Must read from left to right on the port side and right to left on the starboard side.
- May use any type style as long as it contrasts to the color of the hull.
- All of the choices.

District and National News

National News

-**NEW**-National has just released the **MANDATORY** 2021 Vessel Examiner workshop. Thanks to Jan Jewell ADSO-VE/CS it can be easily accessed on the D11NR Vessel Examiner website: <http://rbsafety.d11nuscgaux.info/ve/ve.html> under "HOTLINE MESSAGES" in red. Having completed it, this 15-20 minute workshop is a self study review and is not a heavy lift, but similar to the recent D11NR one that I created in January. Note that there is NOT a quiz at the end. Once you complete the workshop, please submit the "Workshop Self Attestation" form and submit to your FSO-IS. Jan has also provided a link to the form.

One important additional comment. The Coast Guard has deemed this workshop is mandatory for all certified Vessel Examiners, and those currently training to become Vessel Examiners, including members in REYR status who intend to regain their certification. Be sure to review the AUX Manual, chapter 8.B.1.g for information concerning Mandatory workshops.

Again this workshop may be completed as an “Independent Study” course by any member or in a group setting. Upon completion of the workshop, it is the responsibility of the individual member to send a “Workshop Self Attestation” form to their FSO-IS. One final note, they did not include a sunset date, so I assume that you have until the end of the year, but please don't wait.

-THE Coast Guard recently announced new requirements for an Engine Cut-off Switch. Please see: [Engine/Propulsion Cut-Off Devices \(uscgboating.org\)](http://uscgboating.org)
Source: BOSN2 Dustin Finkelson

-ANSC has ample supplies of many VSC supplies including: the new 7012, 7012A, 3000 VSC Save Life's Pamphlet, 30044 Orange If Found decal, 3004A Paddlesmart pamphlet, 3004b Paddle Tip Reflector Kit, 3005 Carbon Monoxide, decal, 3505 VSC event poster, 4064 oil decal, 4067 MARPOL trash decal, Emergency Radio decal, Water Way Watch and other materials. These can be ordered thru you Flotilla Commander(FC) or FSO-MA. If either needs a complete list of materials, it can be found the D11NR VE website: <http://rbsafety.d11nuscgaux.info/ve/ve.html>.

Calendar

-Due to the current suspension of activities nothing to show. However various distance training classes may be found by clicking on the calendar link on the D11NR VE website: <http://rbsafety.d11nuscgaux.info/ve/ve.html>

District News

-IF anyone has an interest in the ADSO-VE/DEP position, please contact me at: dso-ve11n@att.net.

-SINCE our stand down due to COVID-19, there have been numerous requests from the general public for a VSC thru the National "I want a VSC" link. Since virtually no one is responding to the boater, by default I've responded that due to the COVID-19 restrictions placed upon us by the Coast Guard that this service has been temporarily suspended.

By default when you become a Vessel Examiner (VE) you are automatically entered into the "I want a VSC" system. However, the beauty of the system is that you can opt in and out for a day, week, while on vacation, or forever if necessary.

For whatever the reason, if you are don't feel comfortable responding to the boater, please opt out of the system, so they are not left hanging expecting a reply. Opting out and back in is very simple. If you go to the D11NR VE

website: <http://rbsafety.d11nuscgaux.info/ve/ve.html> and on the left side of the page is a box that contains several easy to access links. Click on the AUX DIRECTORY link and put in your member # and password. Enter your member #, last name, or email and click your name and your personal file will populate. Scroll down and change the "Opt out of the I want a VE program". ve test answers 1 "C" see pg 3-5 2"A" see pg 3-3

While access to the program may be on AUXDATA2, I haven't been able to locate it. I hope this will relieve anxiety over responding to VSC requests while under our current CG guidelines.

-VSC activity in D11NR has been reinstated with special guidelines from ADM GAUTIER and CDR. Keenan. Please go to the D11NR website:

<http://rbsafety.d11nuscgaux.info/ve/ve.html> "HOT Line Messages" to find the complete file including uniform requirements, mask requirements, and the assignment to duty.

- VSC's ON RENTALS-At the request of Commodore Kirkwood, and after 18-years, the VSC Rental Program has been updated for 2019 and moving forward.

ANYONE who performs rental VSC's on PWC's, fishing boats, houseboats, paddlecraft, etc. MUST be aware of the new changes in effect after 1 June 2019.

Please go to the D11NR Vessel Examiner (VE) website:

<http://rbsafety.d11nuscgaux.info/ve/ve.html> and review ML-1 thru ML-5 and closely review and follow the instructions as ALL of these forms have been revised and approved by DCO Kirkwood.

Any 2019 currently signed agreements are acceptable, but any new vendors paperwork copy must be emailed or mailed to the DSO-VE. Billy Ray, ADSO-VE will be administering this program, but if you have any questions, please don't hesitate to contact me.

Source: Mike Lauro DSO-VE

-JUST a quick reminder that the old AUXINFO link has been deleted from the D11NR Vessel Examiners website. There will not be a link to replace it as this information is now available thru your personal AUXDATA2 access. The production thermometer will remain.

-JUST a reminder, per the 2015 Vessel Examiner (VE) workshop, paddlecraft VSC's DO NOT count toward the initial VE qualification or requalification. The VSC may be performed a sailboat, powerboat or PWC.

-A special request from the Director's office; PLEASE have the qualifying members 7038 with the 5 VSC's entered into AUXDATA by the FSO/SO-IS PRIOR to submission of the MT-2 to the Director's office.

DID YOU KNOW that goldfish can see both infrared and ultraviolet light!

Let's work together for our safety and the safety of others by setting an example and wear our lifejackets while performing VSC's especially when working around docks and when climbing aboard large vessels!
